Re: Notice of File Closure for Small Mining Project, Richard D. Coleman Mine, S/055/018, Wayne County, Utah

Dear Mr. Coleman:

This letter is to notify you that Division file, S/055/018, for the Richard D. Coleman Mine located on state managed land in Section 32, T29S, R3E, Wayne County, Utah, will now be closed.

The School and Institutional Trust Lands Administration (SITLA) informed us they inspected the site in the fall of 1999 and found no disturbances. SITLA canceled the mineral lease for this project in November 1999. Based on this information, the Division will also close our file for this small mine project.

You are hereby released by the Division from further mining or reclamation responsibilities at this site. You are not required to pay the \$100.00 permit fee as recently requested. If you wish to conduct any future mining related activity in this area, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fee, and receive written approval(s), prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5267. Thank you for completing the required reclamation on this project.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
